

Reference: PCAP  
Project No. 44122  
(Clearing & Grubbing the Site)

Mr. F. Moran McConihe  
Commissioner of Public Buildings  
General Services Administration  
Washington 25, D. C.

Dear Mr. McConihe:

We have reviewed the synopsis of bids which was referred to us by Mr. L. L. Hunter under covering letter dated September 24, 1957, and concur with your recommendation that the contract be awarded to the low bidder provided that:

1. You agree with the interpretation of contract requirements as stated in the September 20, 1957, letter from Clarke & Rapunno to Harrison & Abramovits. A copy of this letter is enclosed.

2. Arrangements will be made whereby clearing, or clearing and grubbing, in the vicinity of the Power House location will be accomplished late in the contract. These arrangements are believed desirable in view of the comments following the review of tentative sketches which require the architect-engineer to re-study the plan in the vicinity of the Power Plant.

3. It is agreed that representatives of the architect-engineer, Public Buildings Service and this Agency will participate in the marking of trees as required by paragraphs 4 - 4 and 4 - 4 (a) of the specifications.

It should be noted that obligation of funds available in your office in connection with this contract will be subject to the usual budgetary controls. Representatives of our Comptroller have therefore contacted your representatives to clarify any problems involved. In the event the above provisions are acceptable, the contract may be executed by the Public Buildings Service and Morrison-Johnson, Inc. without further formal referral to this Agency.

Sincerely,

L. K. White  
Deputy Director
